

DO NOT THROW AWAY SHIPPING SUPPLIES

The supplies included in this package can and should either be reused or recycled. If you do not intend to reuse or recycle these supplies join your local freecycle <http://www.freecycle.org/> and allow someone else to reuse them.

By reusing, freycling and allowing someone else to reuse, or recycling the include shipping materials you will begin to help save tons of trash from being incinerated or being sent to the landfill every year and you will also help to reduce our dependence on the earths resources to make the shipping materials so you will be helping to save the environment two fold.

Be sure to enclose a copy of this notice with EVERY package you ship, it's only one sheet of paper and a moment of your time but will help inform people on how just one little thing will help save the earth and the future for everyone.
